The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Premier Miton Responsible UK Equity Fund – Class C Shares

A sub-fund of Premier Miton Growth Funds ICVC

Class C Income Shares, ISIN no.GB0004073002 (representative share class) & Class C Accumulation Shares, ISIN no.GB00BTHH0625

Authorised Corporate Director - Premier Portfolio Managers Ltd.

Objectives and investment policy

The objective of the Fund is to provide capital growth over the long-term, being five years or more. Five years is also the minimum recommended period for holding shares in this Fund. This does not mean that the Fund will achieve the objective over this, or any other, specific time period and there is a risk of loss to the original capital invested

A minimum of 80% of the Fund's assets are invested in shares in companies incorporated, domiciled or which have a significant part of their business in the UK and up to 20% may be in other investments which may include shares in companies listed in other geographical regions such as Europe and the USA, government and corporate (company) bonds, convertible bonds (bonds that can convert into company shares), collective investment schemes, deposits cash and near cash.

The fund managers will focus on companies that act responsibly; those with a strong Environmental, Social and Governance (ESG) profile and those that it believes are part of long term themes that have a positive influence on society and the environment. At least 90% of the Fund's assets will meet both ESG and responsible investing criteria.

The long term themes will include; health and education, protecting the planet and enhancing society and will seek to avoid investing in companies that have a negative social or environmental impact. Companies across a wide range of industrial sectors can have businesses that drive or benefit from these themes, which may evolve over time.

The fund manager analyses a company on a wide range of responsible factors including specific ESG criteria such as corporate governance, management, environmental and social impact of business.

The Fund has a Committee of Reference, comprising of independent, experienced individuals from a range of backgrounds. Alongside the Investment

Adviser, the Committee is responsible for reviewing and amending, where necessary, the responsible investing and ESG criteria and themes.

A Non-Financial Objectives Report will be published twice a year that will detail the alignment of the Fund's investments to the investment themes, report on the ESG criteria and proxy voting and provide other information on the responsible investing approach.

The Fund may use derivatives, warrants and forward transactions (whose value is based on the change in price of an underlying investment) for the purposes of efficient portfolio management, including hedging (hedging is designed to offset the risk of another investment falling in price). The use of derivatives in the Fund will be limited.

The Fund is actively managed which means that the fund managers will choose the investments, currencies and markets held in the Fund but always within the boundaries outlined in the Fund's objective and policy.

The full investment objective and policy, which outline all the eligible investments as well as types of investments that will be avoided, are available in the Fund's prospectus.

You can buy, sell and switch shares in the Fund on any UK business day. We will need to receive your instruction before 12 noon to buy shares at that day's price.

Terms explained:

Accumulation shares: any income made by the Fund will be reinvested to grow the value of your investment.

Income shares: any income made by the Fund will be paid out to you.

Derivatives: this is a financial contract whose value is related to the value of an underlying asset or index, often used with the aim of managing risk or enhancing returns.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk ← | | | | | | | → Typically higher rewards, higher risk

The Fund is ranked as 6 because it has experienced relatively high rises and falls in value over the past five years.

Please note that even the lowest ranking does not mean a risk-free investment.

The Fund excludes holdings in equities which do not meet its responsible investing criteria, this may reduce diversification across industry sectors. Reducing diversification can increase the risk of greater price volatility. The Fund holds equities which are concentrated geographically in the UK. Assets concentrated by geographic location are more vulnerable to market sentiment in that specific location and can carry a greater risk than funds holding more geographically diversified assets. Equities tend to experience greater price volatility than many other asset types such as corporate bonds or money market instruments. The fund holds equities diversified across market capitalisations, including small and middle capitalisation companies. The return on equity of small and middle capitalisation companies tends to be more volatile than the return on large capitalisation companies.

The indicator may not take fully into account the following risks of investing in this Fund:

- **Liquidity risk:** during difficult market conditions some securities such as equities issued by smaller capitalisation companies, may become more difficult to sell at a desired price.
- **Legal or tax risk:** arising from a change in legal regulations, tax rules or the application of them.

A more detailed description of the risks identified as being applicable to the Fund are set out in the 'Risk Factors' section of the Prospectus.
